Job Title: Android Developer

Location: Toronto, Ontario

Type: Full Time/Part Time

Dymaxia is developing a mobile app that uses wearable devices, Bluetooth LE, and the cloud to continuously and non-invasively manage anxiety in children with autism. We are a hard-working team who share a vision to help all children with autism better manage anxiety. If you can see eye to eye with our vision, and would like to bring your talents to work with us, we'd love to get to know you better.

WHAT YOU'LL BE DOING

- * Refining our app to work for various wearable devices
- * Participating in fast-paced Agile development cycles
- * Contributing to and participating in new feature/product specifications
- * Design and build proof of concepts

WHAT WE NEED FROM YOU!

- * 1-2+ years of experience in Android development
- * Love for building mobile applications and detailed knowledge of Android
- * Excellent skills in Java
- * Highly motivated in learning new technology and knowledge is preferred
- * Bachelors degree or Masters degree in Computer Science or similar field

NICE TO HAVES!

- * Experience with Android Wear or other wearable OSes
- * Worked with BLE technology
- * Some design chops! Want to prototype an idea for a feature and run with it? We love that.
- * Light back-end network / web development experience
- * Experience integrating subscription models into an app on multiple platforms

Compensation:

Dymaxia is a fast growing team – you have the opportunity to be an early member of the team and grow with the company. Salary, equity, and the opportunity to take on a larger role and higher positions in the company.
