

HnL Innovations

Email: hnlinnovations@gmail.com

Job Title: Student Android Developer

Location: Toronto, Ontario **Type:** Full Time & Part Time

HnL Innovations is currently developing a mobile app that helps students get together on large university campuses to create a sense of community. We are a hard-working team who share a vision to give students a chance to maximize their potential. If you share the same vision as us and would like to take an active hand in realizing it, we would like to bring your talent to work with us and to get to know you better.

WHAT YOU'LL BE DOING

- * Working on Android Studio to create the app
- * Participating in fast-paced Agile development cycles
- * Contributing to and participating in new feature/product specifications

WHAT WE NEED FROM YOU!

- * 1-2 years of experience in Android development recommended
- * Love for building mobile applications and sufficient knowledge of Android
- * Great skills in Java
- * Highly motivated in learning new technology and knowledge
- * Bachelors degree or Masters degree in Computer Science or similar field is recommended but not required

NICE TO HAVES!

- * Experience with app to server communications, chat protocols
- * Light back-end network / web development experience
- * Familiar with IBM Bluemix
- * Some design chops! Want to prototype an idea for a feature and run with it? We love that.
- * Experience with developing and optimizing an app for large user base (50k+)

Compensation:

HnL Innovation is a fast growing team – you have the opportunity to be an early member of the team and grow with the company. Promissory-pay, equity, and the opportunity to make a real difference in the company.
